EDUCATION

- **Indian Institute of Information Technology, Kota** Aug 2023 – Present
B.Tech in Electronics and Communication Engineering Rajasthan, India
- **Wendy Academy High School, Kanpur** Jul 2020 – May 2022
Indian School Certificate (ISC), 93% Uttar Pradesh, India

EXPERIENCE

- **GSM** Jan 2026 – Present
Frontend Developer (React + TypeScript, Part-Time) Remote
 - Developed and maintained type-safe React + TypeScript components for a production-grade startup platform.
 - Took ownership of UI enhancements, bug fixes, and feature rollouts across tightly coupled frontend modules.
 - Built responsive React + TypeScript interfaces with optimized API calls, ensuring cross-browser compatibility.
- **Skilvora** Oct 2025 – Dec 2025
Full Stack Software Engineer Intern Remote
 - Designed and developed Skilvora's complete freelance marketplace platform end-to-end as a sole developer.
 - Built scalable frontend (React, Tailwind CSS) and backend services (Node.js, Express, MongoDB).
 - Designed REST APIs, authentication flows, and database schemas for student-client project workflows.

PROJECTS

- **DevLinkr – Smart Pair Programming and Networking Platform**
Tech Stack: React (Vite), Node.js, Express, MongoDB, WebSockets (Socket.io), JWT, Judge0 API, Cloudinary
 - Built low-latency APIs and real-time features using WebSockets, handling concurrent connections.
 - Implemented secure **OTP-based signup** with JWT authentication and dynamic role-based dashboards (Student or Professional), ensuring a robust, seamless user experience.
 - Optimized API design and request flow to reduce latency and improve performance.
- **CodeLens – AI-Powered Code Review Platform**
Tech Stack: React, Node.js, Express, MongoDB, AI/ML APIs, GitHub OAuth, Stripe
 - Developed an **AI-driven** code review platform analyzing 12+ languages for quality, complexity, and maintainability.
 - Integrated **GitHub OAuth** authentication and a freemium **Stripe-based** billing system with real-time usage analytics and transaction tracking.
 - Optimized backend performance using caching and query optimization to improve API efficiency.
- **Hyrify – Full-Stack Job Search and Recruitment Platform**
Tech Stack: React, Node.js, Express, MongoDB, JWT, Tailwind CSS, Clerk
 - Built a responsive, cross-browser compatible full-stack job portal using modern layout techniques (Flexbox, CSS Grid).
 - Designed and deployed **advanced job filters** (skills, experience, location) to improve search relevance and usability.
 - Integrated JWT authentication, CRUD APIs, and data persistence ensuring secure and scalable functionality.

TECHNICAL SKILLS

- **Programming Languages:** C++, Java, Python, JavaScript, TypeScript, SQL, C
- **Frameworks and Libraries:** React.js, Node.js (Express.js), Tailwind CSS, Context API
- **Databases:** MongoDB, MySQL, PostgreSQL, Supabase
- **Tools and Platforms:** Git and GitHub, Linux, Postman, VS Code, Firebase, Vercel, Render, Netlify
- **Concepts:** DSA, OOP, REST APIs, WebSockets, System Design
- **Relevant Coursework:** DSA, OOP, DBMS, Operating Systems

ACHIEVEMENTS

- Solved 300+ Data Structures and Algorithms problems on LeetCode; actively improving problem-solving skills for SDE roles.
- Achieved 3-star rating on CodeChef (Max Rating 1651); secured Top 12 global rank in CodeChef Starters 190.
- Attained Codeforces Specialist rank with a maximum contest rating of 1437.
